PATENT

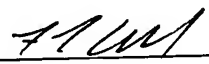

REMARKS

Claims 9 and 10 are pending. No claims have been added, amended, or canceled in this reply. Claims 9 and 10 therefore will be pending upon the filing of this reply.

Claims 9 and 10 have been rejected in the office action under the judicially-created doctrine of double patenting, as being unpatentable over U.S. patent no. 6,742,310 in view of U.S. patent no. 5,640,822.

A terminal disclaimer referencing U.S. patent no. 6,742,310 is submitted herewith to overcome the double-patenting rejection. Withdrawal of the double patenting rejection, and a Notice of Allowability are respectfully requested.
